6 Pin 12V Power monitoring
Use appropriate adaptors to meet your cards input.
Used on X850 AGP series for example.

4 Pin 12V/5V Power monitoring
Use appropriate adaptors to meet your cards input
Widely used by cards like 6600GT, 9800Pro etc.

Alternative Channels
Can measure up to 26V / 10A per channel.
AGP Ground referenced.

Allowing separate measure of 4Pin and 6Pin Power if needed.
Alternate channels A and B can be used to measure any system voltage / current up to 26V and 10A with 8mV voltage and 4mA current resolution.

All is AGP / System ground referenced
